How Long Will Smoot Keep Church "In the Hole?"

In Idaho the church leaders and practically all of the rank and file of the membership are supporting the Republican ticket on the issue of state-wide prohibition.

In Utah the political spokesman for the church, Apostle-Senator Smoot, and his satellites are denouncing the prohibition wing of the church, calling them cowards and cravens, and are holding prohibition to be impractical and undesired.

When a circular was handed to conference visitors quoting President Smith and nearly all of the quorum of the twelve as favoring prohibition, the police department was called upon to prevent the distribution of the circular and President Smith is said to have disapproved that method of referring to his record.

Apostle Smoot's newspaper characterizes the circular as an "outrage."

In view of the facts, is it any wonder the intelligent men and women of the church are feat of Smootism will h disgusted? Is there anything surprising in the fact that many Mormons who really believe in their faith and want to revere their leaders are finding it impossible to further be made the its very for tools of the Smoot machine in Utah?

What does Smoot care if he does place President Smith and other leaders of the church on record for something one year and then gags them the next? Must be not be continued in power and the Fussies, Kinkies, Curlies, Jodies and their families kept in office?

It is really pitiable how deeply Smootism has sunk President Smith and the church leaders in the mire of politics. Those men are too well informed to overlook the complex condition in which they find themselves.

If President Smith were not under the hypnotic spell of Smoot he would experience no discomfort in having his prohibition views proclaimed in every nook and corner of Mormondom. Instead he is persuaded to speak for prohibition one year; to permit Smootites to threaten the liquor interests and then the next year to compel the president's silence and suppress the anti-liquor pronouncements!

If the intelligent Mormons of Utah will do a little more individual thinking this year th will easily arrive at the conclusion th that can be acc

LEDINGHAM AS LEGISLATOR: MAKES HEARTY SPEECH

The premier declared that the strike was called while negotiations were going on for an adjustment of grievances, and he promised that the instigators of the strike would be prosecuted.

The river Seine, which in January threatened to destroy Paris, now looms up in the role of savior. The government has made arrangements to rush. Showed that a large American vote will be polled in the committee and the convention to order.

Henry Welsh presented a report of the committee had undertaken to fulfill their duty, and presented the following names, subject to the approval of the convention: Ed. P. LeCompte, city attorney. W. M. Ritter, assessor: Henry Hughes, commissioner, four-year term; Charles Brockaway, constable; J. S. Geiger, justice of the peace, the report was accepted and the convention to order.

Some Return to Work.

The employes of the Eastern and the Paris. Lyous and Mediterranean railroads have not, to any appreciable extent, responded to the strike call and the government's weapon of mobilization has induced some of these employes on the Northern road to return to their posts. Nevertheless, the Northern and Western railroads are prostrated. The call to the colors has been ignored by the large majority, and at mass meetings today the strikers reiterated their determination not to respond to the call.

Much destruction has been wrought on the western system, where the strikers and their supporters have held up and derailed trains, blocked tracks, destroyed signals, ripped up rails and cut telephone and telegraph wires.

New Arrests Ordered.

The government has ordered the strikers of a score of strike leaders and instructions have been issued to the tealings of a score of strike leaders and instructions have been issued to the troops to use severe measures wherever occasion requires.
